

Continental TSB 2023-1129A

Latest Technology REDI-Sensor™ TPMS Sensors Require TPMS Tool Update and New Sensor Configuration Process

- An up-to-date compatible TPMS tool is required to configure the proper communication protocol.
- Even brand-new tools may have outdated software; and some current TPMS Tools do not support our latest technology.

Four New REDI-Sensor™ Part Numbers Include

▪ SE10008

▪ SE10006

▪ SE10007

▪ SE10005

Step 1 | Confirm TPMS Tool Compatibility using list below

- | | | |
|------------------------------|----------------------|---------------------|
| ▪ Continental Autodiagnos D | ▪ ATEQ VT36 | ▪ SCHRADER S57 |
| ▪ Continental Autodiagnos SE | ▪ BARTEC Tech300PRO | ▪ SNAP-ON TPMS5 |
| ▪ ATEQ VT67 | ▪ BARTEC Tech400PRO | ▪ SNAP-ON TPMS4 |
| ▪ ATEQ VT57 | ▪ BARTEC Tech450PRO | ▪ MATCO MAXTPMS 2.0 |
| ▪ ATEQ VT56 | ▪ BARTEC Tech500PRO | ▪ MATCO MD56 |
| ▪ ATEQ VT47 | ▪ BARTEC Tech550PRO | ▪ MATCO MAXTPMS 3.0 |
| ▪ ATEQ VT46 | ▪ BARTEC Tech600PRO | ▪ COSTCO VT56 |
| ▪ ATEQ VT41 | ▪ BARTEC TechRitePRO | ▪ DILL D48 |
| ▪ ATEQ VT37 | ▪ SCHRADER S56 | ▪ OTC 3838 |
| ▪ HUF DT56 | ▪ TOPDON TP-47 | ▪ NAPA 92-1541 |
| | | ▪ NAPA 92-1551 |

Step 2 | Verify TPMS Tool has latest manufacturer software update

www.redi-sensor.com/updates or call our Tech Support at 800-265-1818 for assistance.

Step 3 | Follow new TPMS sensor configuration process

For new sensor configuration process instructions see next page or visit:

www.redi-sensor.com/updates or call our Tech Support at 800-265-1818 for assistance.
