RAD 500 ARAMID Repair Units for Agricultural Tires

REMA TIP TOP's New Radial Aramid Ag Series Repair Units are specifically designed for the next generation Agricultural Tires in use for today's farming needs. These repair units use the strongest fiber available, the Aramid cord which provides excellent reinforcement in these highly flexible tires that require a high flexibility in a repair unit.

FEATURES

- Easier application due to an increased flexibility. Less heat generation.
- Optimized weight, therefore less influence on the tires balance and a better rolling behavior.
- Better dynamic behavior which avoids tension between tire and repair unit.
- Repair material for the new generation of Agricultural tires (high speed, low pressure).
- Can be used in a Chemical or Heat Cure environment.
- Part of REMA TIP TOP's "Blue Bonding System."

Part No	Description	Size (inch)	Size (mm)	Box/Qty
